PRE-PROGRAMMED MASSAGE

We have designed your chair with multiple massage options for your changing needs. Follow these simple instructions to begin a new pre-programmed massage.

Choose 1 of our 11 pre-programmed massages:
(Gentle, Stretch, Joint Care, Spine Care, Relax, Vigorous, Swedish, Thai, Japanese, Chinese, Balinese)
Pre-Programed Massage Interface
Using the arrows, you can adjust the standard shoulder position.
Adjust Massage Strength Interface

In this interface, you can adjust massage 4D strength, tapping speed, kneading strength and air intensity.
Adjust your chair quickly by choosing one of the three preset seating positions. You can also press and hold the arrows to adjust parts of the chair independently.
Change the Light Interface

Choose 1 of the 7 types of LED light patterns

- Wave
- Energy
- Rainbow
- Wave
- Wake up
- Breath
- Relax
DEMO

To give you a quick glimpse of what your chair can do, we have created a demo module.

Choose the "Demo" icon to begin demo program
Demo Interface
CUSTOM MASSAGE

Every body is different. That’s why we’ve given you the option to customize your massage to meet your specific needs. Follow these simple instructions to create a new custom massage. You can create up to 3 custom programs. To delete a custom massage program, press and hold that icon and choose the “x”.

Choose the "Create New" icon to begin creating your massage program
Select the areas you need massaged
Select which massage actions you would like. The knead, tap, clap, and shiatsu massages can be combined with swedish or roll.

SPOT MASSAGE

This is a fixed massage area and actions program.

Choose the “Spot Massage” button to take you to the Spot Massage page.
Spot Massage Interface 1
Choose the “Settings” button to take you to the settings page
If your chair has any trouble, press the Trouble Shoot "Start" button for the chair to automatically detect problem areas and contact our customer service team.
Choose "Start" button and make sure the chair is not occupied during chair detection.
Your chair is detecting possible malfunctions, please wait for the detection result
You can use your detection code when contacting the customer team about your chair's problems.
Stretch

This massage will stretch your legs and back with a combination of gentle tapping, rolling, and air compression.

Demo

This massage will quickly demonstrate all of the massage features in 5 minutes.

Spine Care

This massage will focus on your lower back with a deep massage that includes air compression.
Gentle

Focus Area

Intensity

Focus Technique

This massage will slowly move up and down your back with gentle tapping, finishing with a relaxing shoulder massage.

Joint Care

Focus Area

Intensity

Focus Technique

This massage will focus on your feet and legs using fast, intense pressure as well as soothing your back with kneading rollers.

Relax

Focus Area

Intensity

Focus Technique

A program designed to provide a mild massage that is great for deep relaxation, best used before going to sleep.
This massage will focus on your neck down to glutes in the beginning then finish with a soothing rocking motion.

This massage will combine vigorous tapping on your lower back and an air massage focused on your thighs and legs.

A program designed to relax tense muscles using Thai styled techniques that helps with improvement of the immunity systems, pain relief, and blood circulation.
**Japanese**

This massage will focus on your mid back and upper shoulders with a deep tissue massage using the shiatsu technique that will create an acupressure effect.

**Chinese**

This massage will focus on your entire back while also massaging your legs and feet.

**Balinese**

This massage will focus on your back and spine using fast, ultra kneading and tapping techniques.
IMPORTANT SAFETY INSTRUCTIONS
(MUST BE FOLLOWED)

The safety instructions must be strictly followed in use to avoid personal injuries and property damage as follows:

• All the safety instructions are described in compliance with degrees of the injuries or damage as a result of wrong use.

<table>
<thead>
<tr>
<th>Warning</th>
<th>Actions tending to cause serious injuries or death</th>
</tr>
</thead>
<tbody>
<tr>
<td>Caution</td>
<td>Actions tending to cause minor injuries or property damage</td>
</tr>
</tbody>
</table>

• Pay attention to the symbols before safety instructions (an example is given below).

<table>
<thead>
<tr>
<th>Warning</th>
<th>Actions that must be absolutely forbidden</th>
</tr>
</thead>
<tbody>
<tr>
<td>Caution</td>
<td>Actions that must be followed</td>
</tr>
</tbody>
</table>

- Before using the massage chair or moving the backrest or the footrest, make sure there is no person or pet close to the chair (in front, behind, below or on the side).

- Before using the massage chair, lift the backrest pad and check whether the fabric of the traveling sections of the massage rollers or other positions are damaged. (Even if the fabric is slightly damaged, stop the product immediately, pull out the power plug, and call customer service.)

- Before using the massage chair, make sure there is no foreign matter between the backrest and the back cover.

- Before using the massage chair, lift the backrest pad and check whether the fabric of the traveling sections of the massage rollers or other positions are damaged. (Even if the fabric is slightly damaged, stop the product immediately, pull out the power plug, and call customer service.)

- If you use the product when the fabric is damaged, you may get injured or get an electric shock.

- Do not massage for more than 30 minutes each time.

- Do not massage a single part for more than 5 minutes.

- If any of these safety instructions are not followed, you may suffer an adverse effect and become injured.

- After use each time, turn the power switch to OFF position and disconnect the power plug.

- Follow the regulations about use of the socket and the wiring devises.

- Use a 110~120V, 60HZ power supply. Don’t use the product in a foreign country or connect it with a transformer without permission.

- Insert the power plug thoroughly into the socket.

- Remove dirt/dust from the power plug at regular intervals.

- If there is any foreign matter between backrest and main PCB box cover, stop the product, disconnect the power supply and take out the foreign matter by opening the protective fabric covering at the lower part of backrest.

- In the case of any abnormality or fault, stop the product immediately and pull out the power plug to avoid smoke, fires and electric shocks.

- In the case of any abnormality or fault, stop the product immediately and pull out the power plug to avoid smoke, fires and electric shocks.

Abnormality and fault examples:

- Before using the massage chair, make sure there is no foreign matter between the backrest and the back cover.

- Otherwise accidents or physical discomfort may happen.

- If you feel physically abnormal while using or experience no effect after use, stop the product immediately and consult a physician about it.

- Otherwise accidents or physical discomfort may happen.

- If you feel physically abnormal while using or experience no effect after use, stop the product immediately and consult a physician about it.

- Otherwise accidents or physical discomfort may happen.
 WARNING

• Do not put the backrest pad between the backrest and the Main PCB box cover.
  Otherwise product faults may happen.

• The following persons should not use the product.
  Persons for whom massage is forbidden by doctors, such as persons with thrombosis, serious aneurysm, acute venous aneurysm, various skin inflammations (such as subcutaneous tissue inflammation) or various skin infections.
  Otherwise product faults may happen.

• The following persons should not massage their waists:
  (1) Persons with acute lumbago, protrusion of intervertebral disc, or displacement of a lumbar vertebra.
  (2) Persons with deformation or other discomfort of the hip joint.
  Otherwise disease may get worse.

• Do not put hands, arms or feet into the backrest's fabric of travelling sections of the massage wheels.

• Children should not use the product. Keep them from playing on the product or climbing onto the footrest, the seat, the backrest, or the armrests.
• Do not climb onto the backrest or the armrests.
• Do not lean or sit on the backrest.
• Persons unable to express themselves clearly or unable to operate the product should not use the product.
• When massaging the neck, pay attention to moving directions of the massage wheels and do not massage with too much force or massage the front part of the neck.
  Otherwise accidents or personal injuries may happen.

• Do not damage the power cord or the power plug.
  (Do not damage, machine, forcibly bent, twist or prolong the power cord or the power plug, or place the power cord or the plug close to a heater, or tie or bind any heavy objects on the power cord or the power plug).
  A damaged power cord or power plug may result in electric shocks, short circuit faults or fires. Please consult the shop from which you bought the product or a designated authorized service center about the maintenance method of the power line or the power plug.

• Do not damage the foot warm (heater) section.
• Do not insert pins or needles into the product.
• Do not cut the product with a cutter.
  If the internal heater is damaged, fires or electric shocks may happen.

• Do not insert or pull out the power plug with wet hands.
  Otherwise electric shocks may happen.

• Do not refit, disassemble or repair the product without permission.
  Otherwise fires, abnormal movements or personal injuries may happen.

 CAUTION

• The following persons (even if they are physically healthy at present) should consult a physician before using the product:
  (1) Persons with muscular atrophy due to aging or thin persons.
  (2) Persons feeling lumbago because of bone or viscus problem.
  (3) Persons tending to suffer sprains or bruising.
  (4) Persons with carsickness or seasickness or strong response when taking other transport means.
  (5) Persons who once received a heat operation or another visceral operation.
  Otherwise health may get worse.

• Before sitting on the product, make sure there is no foreign matter between any two parts of it.
  (Make sure there is no foreign matter on the backrest pad, the backrest, the seat pad, the footrest or inside the surface of backrest pad.)
  Otherwise accidents, injuries, or product faults caused by clamping of hands, feet, or other articles by the product may happen.

• Do not use the product when wearing any hard decorative article on hand (such as a watch).
  If there is any hard article (such as a mobile phone or key) in your pants pocket, take it out before getting into the chair.

• Before hand or arm massage, remove watch, rings, etc.
  Otherwise injuries may happen.

• Before sitting on the seat, make sure the massage rollers are in the home positions.
  If you want to leave the seat during the massage, stop the product first.
  Otherwise accidents or injuries may happen.

• When pulling out the power plug, do not pull the power line but hold the power plug.
  Otherwise an electric shock or a short circuit fault may happen.

• When moving the product by pulleys, put articles such as mats on the floor.
  Otherwise marks may be left on the floor.

• Keep children from the retaining screws on the remote controller holder.
  Otherwise children may cause accidents or suffer injuries by eating it or playing with it.

• Before moving the product by pulleys, remove the obstructions close to it. Lift the footrest to a position a little lower than the waist and move the product slowly.
  Otherwise accidents or injuries may happen because of turnover of the product.

• In use, place the product horizontally.
  Otherwise accidents due to turnover of the product may happen.

• If any symptom such as skin inflammation, itching, or swelling occurs, stop the product immediately and consult a physician.
  Otherwise accidents or injuries may happen.

**GROUNDING INSTRUCTIONS**

The product must be grounded to reduce the electric shock hazard because of functional faults of the product. The product has a power cord with a grounding conductor and a grounding plug. The grounding plug must be inserted into an appropriate socket that has been correctly installed and grounded in full compliance with the local code and decree.

If the grounding conductor is not correctly connected, electric shocks may happen. If you are not sure about correctness of the grounding, have it inspected by a professional electrician. Even if the grounding plug provided with the product does not match with the socket you have, do not refit it by yourself but ask a professional electrician to install a appropriate socket.

The product has a grounding plug. Make sure the product is connected with a socket matching with shape of the grounding plug.

Do not connect the product to a multi-plug.
PRODUCT CLEANING

Wipe the synthetic leather with a soft dry cloth.

- Don’t clean the product with chemicals such as thinner, gasoline and alcohol.

- When using a leather maintenance product (cleaning cloth) sold on the market, follow its directions for use.

- If the synthetic leather is very dirty, wipe it with the method below.
  1. Put a piece of soft cloth into water or 3% to 5% neutral detergent contained hot water and wring it out.
  2. Wipe surface of the synthetic leather with the soft cloth.
  3. Wipe the detergent with a piece of cloth once soaked in clean water and wrung out.
  4. Wipe with a piece of wrung soft cloth.
  5. Allow the synthetic leather to air dry.

- If it is difficult to remove the stains on the synthetic leather, soak a piece of melamine foam bought from the market into a neutral detergent and use it wipe the product.

- Do not dry the surface with a hair drier.

- Surface of the synthetic leather may be dyed by fabric colors; therefore, be careful when wiping the product with denim or colored cloth.

- Keep these positions from long-time contact with plastics to avoid fading.

- Synthetic leather may discolor, so the position in contact with the hair dye used should be covered by a towel.

CONSUMER WARRANTY

The FJL50 massage chair has a three year in-home service warranty. The warranties are only valid in the 48 contiguous states. We do not provide a warranty for chairs sold to Alaska or Hawaii.

Consumers may contact the Fujimedic customer service department at 1-877-977-0656 between 9:00 am and 5:00 pm PST, Monday through Friday or email us at service@fujimedics.com for warranty or service issues.

The warranty period begins from the day of purchase; no allowance or extension is offered for delivery and/or installation.

The warranty only applies to FJL50 massage chair, any accessories or enhancements are not included.

The Fujimedic service department will make an appointment with the consumer before they arrange in-home service which is performed by authorized technician.

In certain situations, the warranty does not apply:
A: Customer cannot provide receipt and warranty card.
B: Damage caused by improper installation, abuse, or improper maintenance.
C: Damage caused by disaster (ex. earthquake, fire, flood, etc.), abnormal power supply, breakages (ex. pets chewing, drink spilling, etc.).
D: Massage chair repaired by unauthorized technician or if unauthorized modifications occur to the massage chair.

If the synthetic leather, fabric, sponge, or fillers become naturally worn, they are not considered as defect under this warranty. Read the safety instructions before using this massage chair. Under no circumstance shall Fujimedic or its representatives be liable for indirect, consequential, or incidental damages (including damages for lost profits, business interruption, bodily injury, and so on).

The warranties are not applicable if the massage chair is being utilized for business use.
